

This program is open to all registered delegates

International Program

GLOBAL PERSPECTIVES STREAM

Tuesday 8 May | 10.45am - 5.30pm | Stream 6, Room P3

New to Ozwater'18 is a dedicated full day technical stream dedicated to international projects, experience and opportunities. The full day program will cover the following themes:

- Achieving SDGs
- International Experience of Innovative Investment
- Water's Contribution to Energy Security

Refer to page 22 for details of all presentations in this stream

WOMEN OF WATER WORKSHOP

Tuesday 8 May | 4.00pm - 5.30pm | Stream 8, Room P4/P5

Building on the Association's Channeling Change Program and activities to connect in Australia and Vietnam, the Women of Water Workshop brings together champions of diversity who are strong advocates for a more inclusive and diverse water sector. You will hear from leading women and men of water from Australia and across the Indo-Pacific, and participate in discussions on strategies, lessons and approaches to be considered by individuals and organisations to enhance gender equality and social inclusion within the workplace.

Refer to page 36 for more details.

WATER UTILITY IMPROVEMENT PROGRAM WORKSHOP

Wednesday 9 May | 10.45am - 1.15pm, including lunch | Stream 7, Room M4

This workshop offers the opportunity for Ozwater'18 delegates to hear from and meet with the water utility professionals involved in the Association's Water Utility Improvement Program from Australia and Vietnam:

Son La Water Company, Vietnam - Cairns Regional Council Water & Waste

Saigon Water Corporation, Vietnam - Seqwater

Binh Duong Water Company, Vietnam - Gary McLay (formerly Wannon Water)

Phu Tho Water Company, Vietnam - Coliban Water

Hue Water Company, Vietnam -

Western Australia Water Corporation

Refer to page 37 for more details

INTERNATIONAL DELEGATION SITE TOUR

Thursday 10 May

International delegates will travel to the Queensland Urban Utilities Innovation Precinct, located at the Luggage Point Sewage Treatment Plant, which is an Australian first. Delegates will then go onto Wynnum WWTP which consists of a sewage treatment plant (biological nutrient removal) and Micro Filtration Resource Osmosis Plant (MFRO).

This is only open to international delegates.

This tour is proudly hosted by:  **UrbanUtilities**

Meet the Vietnamese Delegation at the AWA stand, **3.15pm - 4.00pm, Tuesday 8 May.**
